

**REPUBLIC OF
THE MARSHALL ISLANDS**

MARITIME ADMINISTRATOR

Marine Guideline

No. 2-11-15

Rev. Feb/2020

**TO: ALL SHIPOWNERS, OPERATORS, MASTERS AND OFFICERS OF
MERCHANT SHIPS, AND RECOGNIZED ORGANIZATIONS**

**SUBJECT: Organizations Acting on Behalf of the Republic of the Marshall Islands
Maritime Administrator**

PURPOSE

This Guideline provides a comprehensive listing of organizations authorized under written agreement to act on behalf of the Republic of the Marshall Islands (RMI) Maritime Administrator (the "Administrator) as Recognized Organizations (ROs), Recognized Security Organizations (RSOs), Aviation Inspection Bodies (AIBs), and Appointed Representatives (ARs). This Guideline supersedes Rev. Sep/2019 and reflects the updating of contact information for American Bureau of Shipping (ABS), and the removal of Azure Naval Architects.

APPLICABILITY

This Guideline applies to all RMI-flagged vessels.

GUIDANCE

1.0 Definitions

1.1 Appointed Representative (AR)

An AR is an Administrator appointed agent or representative for the statutory survey of unclassed yachts for the issuance of statutory certificates; initial, annual and renewal surveys and Compliance Verifications; and other services.

1.2 Aviation Inspection Bodies (AIB)

AIBs are entities recognized by the Administrator for the verification and certification of helicopter landing areas (HLAs).

1.3 Classification Society or Class

A Classification Society is an organization that establishes and applies technical standards in relation to the design, construction, and survey of ships.

1.4 Recognized Organization (RO)

An RO is an entity delegated authority with respect to statutory certification and services; and 1) if a Classification Society, has been assessed by the Administrator and found to comply with the Code for Recognized Organizations (RO Code); or 2) if an AR, has been assessed by the Administrator and found to substantially comply with the RO Code.

ROs, among other things, are authorized to verify compliance with the International Safety Management (ISM) Code and issue ISM Code Documents of Compliance and Safety Management Certificates on behalf of the Administrator.

1.5 Recognized Security Organization (RSO)

An RSO is an organization with appropriate expertise in security matters, and with appropriate knowledge of ship and port operations, authorized to carry out assessment, verification, approval, or certification of activity required by SOLAS Chapter XI-2 or by Part A and certain elements of Part B, as made mandatory by the Administrator, of the International Ship and Port Facility Security (ISPS) Code. (See Marine Notice [2-011-16](#)). Only those Classification Societies that have been specifically designated by the Administrator in writing may act as an RSO on RMI flagged vessels.

RSOs assist in the implementation and continued enforcement of the ISPS Code. Their duties include review and approval of the Ship Security Plans (SSP) or of amendments to a previously approved plan, carrying out verification audits of the SSP aboard ships, and issuing International Ship Security Certificate (ISSC) to ships found in compliance with the ISPS Code.

Vessel owners are reminded that the ISPS Code strictly prohibits RSOs from undertaking review and approval of SSP and its amendments for a specific ship if the selected RSO had been involved in either the preparation of the Ship Security Assessment (SSA) or of the Ship SSP and/or amendments under review.

2.0 Classification Societies

2.1 The following Classification Societies, with one exception as noted, have been authorized as both ROs and RSOs and may provide services to all RMI flagged vessels.
