

» Electronic Certification & Documentation

The Republic of the Marshall Islands Maritime Administrator issues statutory certificates and documents electronically in accordance with International Maritime Organization guidelines. This includes the yacht's Certificate of Registry, allowing instantaneous issuance of certificates during registration or when amendments are required.

Documents and certificates may be verified online by the following means:

- clicking on the quick response (QR) Code found on the certificate which links a user directly to the verification site;
- using a smartphone's camera to scan the QR Code; or
- verifying online using multiple data points.

In addition to registration documents, crew documents may also be verified online.
