

## » Master (Yachts)—Unlimited Tonnage Certificate of Competency (CoC)

The Master (Yachts)—Unlimited Tonnage CoC provides a pathway for current yacht masters who possess a 3,000 gross ton (GT) limit on their CoC to attain an unlimited tonnage CoC that is exclusively for yachts. The course remains the only program of its kind which was created specifically for yacht masters.

With the global yacht fleet's continued growth in this size range, this qualification allows masters to remain with owners as their yachts increase in size beyond 3,000 GT.

See Preliminary Application Requirements for the Master (Yachts)—Unlimited Tonnage Capstone Course (SICD-24).
